SMSF At Call	1.70% (0.95% standard variable rate)

For Katherine Sadler, Group Head of Marketing for Cashwerkz: “Competition is more important than ever. With the cash rate dropping to a historic low and ongoing uncertainty in global equity markets, competitive returns above 0.5% can make a crucial difference to a savings or retirement strategy. This is particularly important for retirees facing a sustained low-interest-rate environment.”

“Last year, we experienced a doubling of investor placements on the Cashwerkz platform. And we know our ADI partners are offering above market rates that are adding value. Today 79% of our investors return to re-invest with our ADI partners. Over the past few days and particularly in the last 24 hours we have watched many Australians visit the Cashwerkz marketplace to deliver market competitive rates as they look for better yields for their cash investments,” she said.

Cashwerkz is a competitive marketplace for investors and advisers seeking competitive rates in one place underpinned with a federal government guarantee for investments up to \$250,000, a transparent, efficient and secure environment backed up by regular reports that can support investments within 3-clicks at www.cashwerkz.com.au.

Cashwerkz continues to build out its innovative, user-friendly marketplace with strategic banking and ADI partners to deliver upon its goal – market competitive rates supporting the best interests of everyday Australians.
